

Public Notice: 10/09/17

Websterville Fire District #3 Water Main Project

**Here is what to expect over the next two weeks:**

- Continue transitioning residential water connections to the new water main
- Individual residences will have minor outages when the contractor is working on their service connection.
- If you have asked for Tom Estes to run a new line into your house, please make sure to set a date with him for this work to get done in this time period.
- the existing water mains on Websterville Road, Little John Road, Milano Hill Road and Cassanova Street will be connected to the new water main
  - **Scheduled Outages May Occur**
    - During this work the contractor may have to shut down water to multiple residences to complete this work.
    - The contractor will give a 24-hour notice prior to shut down of water in the form of a visit to each house affected and delivery of a flyer stating this will be occurring.
    - If your water is shut off and you did not receive a notice please contact Keith Black of Weston & Sampson at 508-345-9509.

For further questions please contact the Project Engineer, Ken Bisceglia, PE at 802-578-2451.
